

Beyond the Light Switch: What will the future of energy look like?

**Wednesday, May 2, 6 – 9 PM
Milliken Auditorium at the Dennos Museum Center**

This highly relevant two-part PBS documentary brings a comprehensive and timely presentation that takes a close look at our country's current electric energy status and the challenges we face. Gain a much needed, balanced perspective of the issues. Hear from land-owners, energy company CEO's, environmentalists, researchers and everyday people as they discuss some of the today's most pressing electric infrastructure challenges.

Local Panel Discussion

Debates on these issues are presently underway here in our community. Join us for this thought-provoking documentary with localized panel discussion moderated by Detroit Public Television Producer/Director Ed Moore.

Registration is \$5 at the Door
