

Solar Energy Works for Northern Michigan

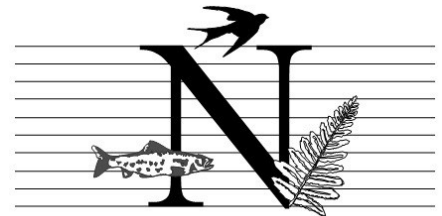

Monday, October 1, 6:30 –8 pm
NMC Oleson Center

Check-in: 6 PM

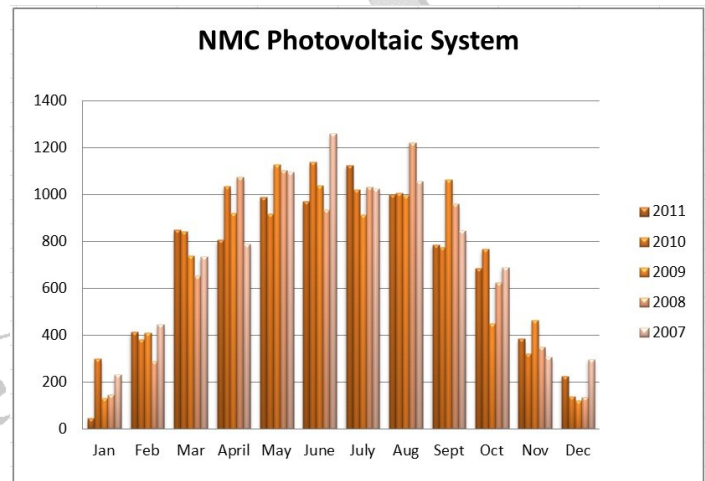

Discover why Michigan's Economy needs a good dose of solar energy. Skip Pruss, former Michigan Department of Energy, Labor, and Economic Growth will discuss the important role solar energy plays in the efforts to diversify Michigan's energy supply while effectively serving as an economic development tool. In addition, Solar Contractor Matt Vajda will provide a report on the Traverse City Parking Deck solar project and hear from Dan Paulson as he highlights plans to develop "net-zero" energy homes powered by solar. The event will also feature an announcement of a project to build a solar array at a prominent local business and provide plenty of opportunity for questions. Leave the session with a clear understanding of why so-
